

Example 9

Passing variables to awk.

```
$ awk -v num='2' "{print num}" ./data
```

```
2
```

```
2
```

```
2
```

```
2
```

```
2
```

```
2
```

```
$
```

Example 10

What happened here?

```
$ awk -v num='2' "{print $(num)}" ./data
```

```
zsh: command not found: num
```

```
John 25 john@example.com
```

```
Emily 32 emily@example.com
```

```
Michael 42 michael@example.com
```

```
Sarah 28 sarah@example.com
```

```
David 35 david@example.com
```
